Foreword – Holly T. Dublin	VII
Preface – Julia Marton Lefèvre and Jane Smart	IX
Acknowledgements	XI
1. The IUCN Red List: a key conservation tool	1
Jean-Christophe Vié, Craig Hilton-Taylor, Caroline M. Pollock, James Ragle, Jane Smart, Simon N. Stuart and Rashila Tong	
2. State of the world's species	15
Craig Hilton-Taylor, Caroline M. Pollock, Janice S. Chanson, Stuart H.M. Butchart, Thomasina E.E. Oldfield and Vineet Katariya	
3. Freshwater biodiversity: a hidden resource under threat	43
William R.T. Darwall, Kevin G. Smith, David Allen, Mary B. Seddon, Gordon McGregor Reid, Viola Clausnitzer and Vincent J. Kalkman	
4. Status of the world's marine species	55
Beth A. Polidoro, Suzanne R. Livingstone, Kent E. Carpenter, Brian Hutchinson, Roderic B. Mast, Nicolas J. Pilcher, Yvonne Sadovy de Mitcheson and Sarah V. Valenti	
5. Broadening the coverage of biodiversity assessments	67
Ben Collen, Mala Ram, Nadia Dewhurst, Viola Clausnitzer, Vincent J. Kalkman, Neil Cumberlidge and Jonathan E.M. Baillie	
6. Species susceptibility to climate change impacts	77
Wendy B. Foden, Georgina M. Mace, Jean-Christophe Vié, Ariadne Angulo, Stuart H.M. Butchart, Lyndon DeVantier, Holly T. Dublin, Alexander Gutsche, Simon N. Stuart and Emre Turak	
7. The Mediterranean: a biodiversity hotspot under threat	89
Annabelle Cuttelod, Nieves García, Dania Abdul Malak, Helen J. Temple and Vineet Katariya	
Appendices	
1. Summary of the five criteria used to evaluate if a taxon belongs in a threatened category	105
2. The IUCN Red List of Threatened Species™ threat categories scale	106

3. Sources for numbers of described species used in Table 1 of the chapter State of the World's Species	107
4. Summary of number of animal species in each Red List Category in each taxonomic class	108
5. Summary of number of plant species in each Red List Category in each taxonomic class	109
6. Number of species in each Red List Category in each major animal taxonomic group (Class, Order)	110
7. Number of species in each Red List Category in each major plant taxonomic group (Class, Family)	116
8. Number of threatened species in each major group of organisms in each country	125
9. Number of extinct, threatened and other species of animals in each Red List Category in each country	132
10. Number of extinct, threatened and other species of plants in each Red List Category in each country	139
11. Number of endemic and threatened endemic species per country for completely assessed taxonomic groups (mammals, birds, amphibians, freshwater crabs, reef-forming corals, conifers, cycads)	145
12. Species changing IUCN Red List Category for genuine reasons	152
